

2024 SPONSORSHIP PACKAGE

MAY 4 - MAY 16, 2024

WWW.RUNWITHROB.COM

25 Half Marathons
13 Days 1 Province
1 Virus you wish you knew about

Dear Valued Supporter,

Following the incredible success of Run With Rob in 2023, we are thrilled to announce our next ambitious endeavour: Run With Rob New Brunswick 2024. Once again, Rob Tétrault will embark on a remarkable journey, running across the beautiful province of New Brunswick over the course of 13 days to raise awareness and funds for the Canadian CMV Foundation.

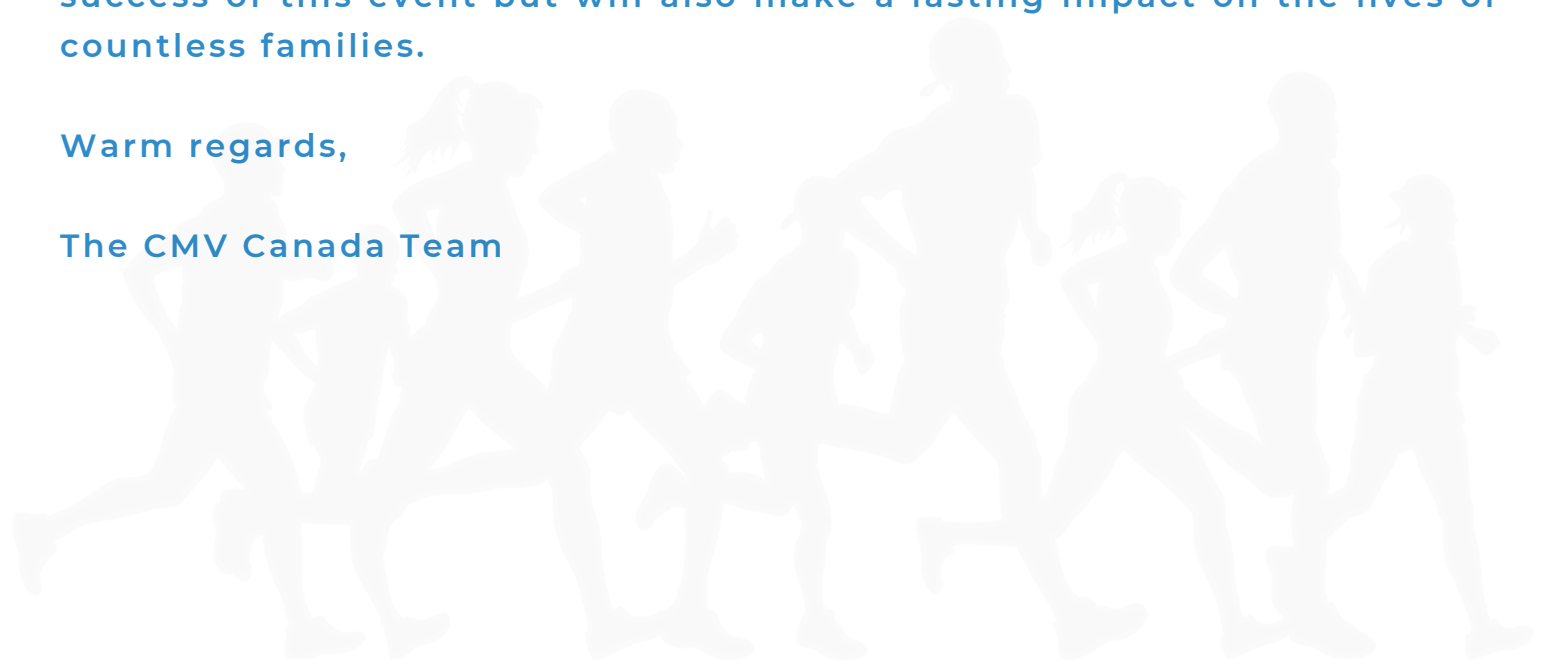

Inspired by the indomitable spirit of Terry Fox, Rob will lace up his running shoes to traverse the entire length of New Brunswick, covering a distance of 527 kilometres. From Edmundston to Amherst, NS, Rob's dedication will symbolize our collective commitment to ensuring the health and well-being of newborns in the province.

Run With Rob is not just a run; it's a movement to make a meaningful impact on the lives of infants and their families affected by congenital Cytomegalovirus (cCMV). CMV remains the most common infectious cause of birth defects in Canada, and early detection is crucial for better outcomes. While numerous provinces across Canada have successfully implemented universal newborn screening for cCMV, regrettably, no such program currently exists in the Maritimes. We can work together to change that.

As we gear up for Run With Rob New Brunswick 2024, we invite you to join us as a valued sponsor. Your support will not only contribute to the success of this event but will also make a lasting impact on the lives of countless families.

Warm regards,

The CMV Canada Team

FAQ

Who is Rob?

Rob Tétrault is an award-winning financial advisor, philanthropist, and dad from Winnipeg, Manitoba. Rob co-founded the Canadian CMV Foundation with his wife Michelle after their son Alexandre was born with cCMV in 2008. Prior to Alexandre's birth, neither Rob nor Michelle had ever heard of cCMV. Today, Rob and Michelle are committed to raising CMV awareness and advocating for universal cCMV screening across Canada.

What is CMV? What is cCMV?

Cytomegalovirus (CMV) is a common virus for people of all ages; however, a healthy person's immune system usually keeps the virus from causing illness. When a baby is born with a CMV infection, it is called congenital CMV, or cCMV for short. CMV is the most common infectious cause of birth defects in Canada. About one in 200 babies is born with cCMV.

What is the Canadian CMV Foundation?

The Canadian CMV Foundation is a national charity committed to preventing cCMV infections and improving the quality of life for those affected. We are focused on raising awareness, supporting the CMV community, advocating for change, and championing innovative research.

What is Run With Rob?

Run With Rob is more than a run; it's a national movement for CMV awareness inspired by Canadian hero Terry Fox. In its inaugural event in 2023, Run With Rob brought together over 180 individuals who ran alongside Rob. Notably, among the participants was Wab Kinew, now the Premier of Manitoba.

Is there a petition to sign?

Yes! Sign the petition in support of universal screening in Canada at www.change.org/UniversalScreeningMB

Who should I contact with my questions?

Please contact the Canadian CMV Foundation at info@cmvcanada.com
